Application No	17/03417/OUT
Comments:	<p>I object to this application for the following reasons;</p> <ol style="list-style-type: none"> 1. The traffic impact to junction 17 will be too excessive. As a daily user of the junction I find it barley copes with the current traffic volume. Chippenham and junction 17 are already notorious for traffic jams. 2. The stream next to the development already floods excessively across roads and this will be increased due to drainage from such a massive site as well as pollution in the stream (used by a huge variety of wildlife). 3. Light pollution in the area 4. I do not believe there will actually be lots of local jobs 5. There is no real need as no companies are requesting use of the site, it is speculative development. 6. It will be an ugly first impression of Chippenham. 7. There seems to be no benefit to the community. <p>It is the responsibility of the council to ensure Chippenham grows in the right way and with consideration and benefits to its citizens and various communities so please help prevent this pointless application.</p>
