Application No	17/03417/OUT
Comments:	<p>I wish to register my objection to this application for the many reasons listed below</p> <p>Lack of consultation/due process with those affected by the development. I have received no information about this planning application from the developers or Wiltshire Council - any information has come from neighbours or the local papers- surely everybody that this might affect should have been contacted and fully informed.</p> <p>Traffic- there are huge implications on the increased traffic congestion on and around junction 17 - which is already very congested at peak hours- the increased risk of accidents, serious harm or death from vehicles queuing to get on or off this junction is very worrying as is the increased traffic through the surrounding villages, especially Kington Langley which is already used as a rat run by speeding vehicles and lorries well over size suitable to be using such a small road. It is a miracle that that there has , as yet not been a fatal accident on the blind bend by the church , but this proposed development is making the chance of one so much greater.</p> <p>There will be a massive visual, ecological and physical impact on the countryside- the height of the buildings proposed is totally out of proportion and in keeping with the location, as well as the light and noise pollution at night and exhaust fumes from queuing traffic, not to mention the increased flood risk.</p> <p>The sort of business that this will appeal to will not be one employing a large amount of people so the employment argument of the council is unfounded.</p> <p>There is no doubt that one day there will be some sort of development at this important junction on the M4- but the size and scale of this proposed development is utterly unjustified, poorly conceived and made with no concern for the devastating consequences to the surrounding area, its habitat or its neighbours- it must be totally scrapped or at the very least, dramatically re designed.</p>
Name	Mr. William Bicknell
