Comments:	<p>I feel the size of the proposed development is far too large for the infrastructure of the immediate area and the effect of the increased heavy traffic will push smaller vehicle users into village cut throughs to the detriment of local residents.</p> <p>I also believe that a huge complex like this with 24/7 light and noise will also make life very difficult for the surrounding villages and houses.</p> <p>In wet years we have seen that flooding can suddenly appear in the area and a huge hardstanding like this will have a sizeable run off potential which could be felt as far away as Sutton Benger.</p>
