Application No	17/03417/OUT
Comments	<p>I object to this planning application on many levels. Given the location and the geography there are the blatantly obvious detrimental impacts on environmental, economic, flood and horrendous traffic safety issues that a proposal of this magnitude presents.</p> <p>But also and most importantly this is a rural area not an urban sprawl. It is a sad indictment of modern life that dictates we have to over develop every square inch of green land....It is unnecessary, unwanted and unproven that there is even a demand for it. Like many other speculative developments around the country this too will sit empty as a vast carbuncle on our otherwise beautiful Wiltshire countryside. Why is it that people who choose to live in a rural area have urbanization forced upon them by opportunistic developers. I object wholeheartedly.</p>
