Comments	<p>I would like to object to this proposal due to insufficient attention within the plans towards local traffic congestion/management and also the possibility of flood risks as regards the immediate villages and the draycot stream which can and does rise very quickly in times of heavy rain. Without the appropriate mitigation this development could have a significant detrimental impact on the surrounding villages.</p> <p>There has also been no consultation with the local villagers regarding the proposals of this development site.</p>
