Application No	17/03417/OUT
Comments:	<p>I strongly object to this planning application for the following reasons.</p> <p>The application is outside the Wiltshire Core Strategy.</p> <p>There has been no account taken of the increased traffic in the area and at M4 Junction 17, which is already extremely busy with regular queueing on the carriageways.</p> <p>The building would completely dominate the skyline. As a 24hr operation there would be continual noise and light pollution.</p> <p>There would also be a flood risk as this has not been addressed.</p> <p>There are more suitable sites available i.e. jct 15.</p>
