Application No	17/03417/OUT
Comments:	<p>I have just heard about this application and I wish to register and OBJECTION. I have been working away in Scotland so have not had chance to see the full details. However on the basis of what the planning application is about, I wish to object on the basis of the impact on traffic at J17 of the M4.</p> <p>I currently commute via this junction from my home in Christian Malford to offices in Bristol, Swindon and Birmingham. Traffic from Bristol leaving at J17 regularly back up half way to the Leigh Delamere services in the mornings already. The traffic from Sutton Benger regularly has to wait 5-10 minutes to get on to the motorway. Any increase in traffic flow at this junction risks creating a further bottleneck like those already experienced on the M32 junction at Bristol where traffic in the morning often queues for over a mile.</p> <p>In addition the dump causes chaos on the road to Sutton Benger.</p> <p>An increase in traffic attempting to use this junction would be disastrous for the traffic flow in the areas around the M4 junction and attempting to travel south past Chippenham. I raised the same objection the The Range proposal, thankfully withdrawn.</p> <p>As I am currently on holiday on Skye this will have to be the extent of my current objection, but I trust others will raise what I can see as many other reasons this ill judged and speculative scheme must be nipped in the bud.</p>
Name	Mr. Neil S Chambers
Address:	2 Roundwood View Station Road Christian Malford Chippenham Wiltshire SN15 4BG
