Dear Sir,

My wife and I are shocked to see the enlarged proposed development around Rowden Lane, 14/12/11. Our original plan was 900 houses, which after a meeting, we were told the houses would be built elsewhere, only for Westminster to override that decision. Now over 3,000 houses, a school, and factories.

We pay the community charge, your wages, in full wherever you ask for it. Your decisions are overridden, the meetings we are invited to are a joke where decisions are made before they even start. The information we are given are dubious.
Our house will be devalued and we will pay the same or more community charge, and we are let down by the Council we pay for. We are not getting the service we pay for.

Stop the building, the area cannot sustain the massive development being planned.

DAVID MORIARTY.
