Application No:	16/07288/OUT
Comments:	<p>I have just received the information about this planning application and express in the strongest terms that I believe you must reject this planning application. To give approval to this application would go against those laid out in the Malmesbury Neighbourhood Plan, which is a detailed, evidence based democratically approved plan covering development site allocation up to 2026.</p> <p>I am totally against this application being granted approval as should you be in light of the work carried out on the Neighbourhood Plan. Otherwise what was the point of all the work done to produce the Plan and our democratic vote in favour of the plan?</p> <p>As a town, Malmesbury has spent a lot of time and money on developing and democratically voting for its Neighbourhood Plan and therein deciding what and where developments should take place to meet the Council and Government demands for more housing in our town, etc. Personally we have taken part in this process throughout its development and voted in favour of the final document. Our Neighbourhood Plan does not include a development at East Filands. The existing development now being built totally ignored and snubbed the democratic wishes of the town. However now our plan is finalised, agreed, voted for and accepted. Based on this we wish to state in the strongest terms that we are against any plans for extending East Filands.</p>
