8th May 2017

OPPOSITION TO CHIPPENHAM GATEWAY JCT 17
APPLICATION No: 17/03417/OUT

Dear Sirs,

I understand that an application for planning has been submitted, and a large area is being considered. On these grounds alone I would be unhappy for this to take effect. There are many species of animals and insects that are under threat all ready with extinction, and a large development would, or could, seriously multiply their distress.

I believe also that large volumes of water are involved in the event of severe rainfull and Sutton Benger the large village in which I reside, could be in the line of the flood waters if this takes place.

Our village is all ready considerably more busy than when we have been used to, and even more traffic in the form of lorries can only be the result if this development goes ahead.

Over part of Wiltshire is beautifully green
with plenty of fields, dairy farms, trees and
downs, please don't spoil it with any more
industrial development.

Yours sincerely.

(C. M. M. BRAZIER esq.)
