

17/08735/FUL Land at Church Place, Lydiard Millicent

Dear Richard.

I have recently seen this application on the planning list. I have noted there is an heritage desk assessment submitted with the application which is useful. However, this site, being located in the heart of the medieval settlement, does have archaeological potential and has not been previously investigated. I advise that an archaeological evaluation is undertaken across the site and reported on prior to the determination of the application.

Regards, Melanie
