Application No	17/08735/FUL
Comments	<p>I am writing in opposition to this development for the following reasons:</p> <ul style="list-style-type: none"> - Safety. Resident's and visitors traffic will cross a footpath where children walk to school. The road is already busy as cars speed through the chicane alongside them. The vehicles will exit onto the roundabout which is already busy and often congested. Crossing the road for pedestrians will also prove more hazardous - Volume of traffic. The traffic in the village is already very heavy every weekday, with commuters etc. Drivers already have to negotiate a roundabout, traffic humps and two chicanes and often take risks, racing through the chicanes. Tempers are often frayed and horn use is commonplace - Need for housing. The application does not appear to include affordable housing for local residents. Lydiard Millicent is an affluent parish with high house prices. The development will not benefit first time local residents wishing to stay in the village or rural workers - Site. The field is prone to flooding. The site next to the garage which has laid dormant for over 20 years would surely be a preferable instead of concreting over a new field? - Playground. The siting of a playground next to a busy road is questionable - Conservation area. I understood that The Street is a conservation area, however it appears that an a stone wall and mature trees will be removed, ruining the look of this area of the village
