Application No	17/08735/FUL
Comments:	<p>I acknowledge that some will find this application difficult that's understandable in a conservation area but sensitively constructed I think this may be a very good addition to housing on offer in the Village of Lydiard Millicent I like the idea of a play area as although Lydiard Fields has an excellent facility when our kids were younger I found it quite a walk. I am pleased that there will be more housing near the Church as we exist to serve the community. I Realise that people build houses to make money but also housing IS needed in the UK and the plans show that this housing is being built with some imagination. Care and PR will be needed so neighbours near and far feel included in the planning but broadly from what I have seen thus far this looks good and will bring life into the centre of the Village I hope that its able to succeed and that the people who live in these houses will love living here. Lydiard Millicent is a super place to live and if this development is done well I am sure it will work. Access in and out will clearly need attention simply because of increased traffic levels. Other housing in LM has been built very well maybe those building were New and involved change, but now we accept them so I hope this will eventually blend into the landscape too This is written in my personal capacity and I trust my views will be seen as they are meant to be. Good planning and good listening and good design should win through</p>
Name	Tudor V Roberts
Address:	<p>The Vicarage The Butts Lydiard Millicent Swindon SN5 3LR</p>
