	<p>Proposed development would significantly upset the balance between buildings and the open spaces in between in this Village and the designated Conservation Area in which this development is proposed.</p> <p>Proposed development, in such close proximity to Little Talboys, would clearly impact on architectural value and setting of this very beautiful and historical property.</p> <p>Approval of proposed development seems very likely to set injurious precedent for future such development - to the detriment of all those who live in Keevil.</p>
	Mr. Phillip P Hamill
