	<p>The planning application refers to two semidetached three bedroom properties. The plans appear to be for two, four bedroomed detached houses with linked garages which I feel would look incongruous in the conservation area of the village and adjacent and opposite such listed properties of historical interest.</p> <p>My main concern however would be the dangerous traffic situation and congestion that exists along Main Street especially during school hours.</p> <p>Another entrance for two houses would serve only to exacerbate this situation however many parking spaces are provided.</p>
