Comments:	<p>I would like to comment on the aesthetic here - but would also state that the other salient points raised by my friends and neighbours are in line with my thoughts.</p> <p>It is clear that whoever drew up these plans has not visited Keevil - nor the site involved. Had they done so, they would NOT have produced such a conspicuously ugly, oversized proposal that bullies both properties either side.</p> <p>If building is to be allowed, then it should be a friend of Little Talboys and Church Farm - and 17/12491 is no friend of these properties nor is it a friend of Keevil's.</p> <p>Please, if we are to build in Keevil, can we build properties that we are all proud of. May I suggest that perhaps the employment a Conservation architect who fully appreciates and understands what is required would then be able to create a home that would be a pleasure to walk pass and, as I write this heartfelt objection, would also sit happily amongst the other many charming old Listed cottages, and also the snowdrops along Main Street at this time.</p> <p>Please, as said, let's start building homes in Keevil that we are all proud of, whether we are the owner of the land, the designer, the PC, the Planning Committee, the builder, the new home owner, and most importantly of all, the neighbours.</p> <p>Time for change and time for beauty.</p> <p>Juliette Goodwin.</p>
