Application No:	18/04656/FUL
Comments:	<p>There are so many sites across Trowbridge which could host this development without significantly impacting the natural beauty of this greenfield land. The site is of such significant heritage and importance, I'd be incredibly surprised and disappointed if the council even consider approving this.</p> <p>The site currently is of value to the entire Trowbridge community including it's wildlife, please do not let this site become of value only to the developers proposing the destruction of this gorgeous, historic space.</p> <p>This isn't registered as a Total Conservation Area for nothing. Please do not approve this application and please Totally Conserve this Area.</p>
