

Dear Mr Perks and Mr Fuller,

I wish to register my strongest objection to the planning application 18/04656/FUL.

The orchard is in a conservation area and would be destroyed by the building of houses. The council has a duty to preserve it as an area of environmental and heritage interest.

The proposed development would have terrible effects on the pollution levels in the area due to increased traffic.

It would over-stretch the infrastructure and risk the safety of pedestrians accessing the park or doctor's surgery.

Please inform me of any meetings to discuss the development.

Yours sincerely,

Patrick Dooley
