Comments:	<p>I am strongly opposed to this proposed development at Courtiers House and surrounding areas. It would be a travesty to permanently obliterate such a precious green space right in the heart of a historic town. A rich and diverse habitat would be lost forever. Ancient trees are a prized part of a landscape. To drastically reduce such a mature orchard is short-sighted and to the town's detriment. Yes....there are proposed plans in place to leave a certain amount of trees standing.... But to think that planting fledgling new trees post-development will suffice is absurd. The town has a glut of brown field sites that can much better support and sustain a development of this nature. Think again. Trowbridge deserves better</p>
