Comments:	<p>This development will destroy most of the beautiful trees of the park. It will impact the possibility to do more celebrations as the previous army force days and others that could improve the reputation of Trowbridge and consequently more work and money for the community. I am also really upset by the fact that to crown lifting a little bit the trees of my house I have to ask a permission and you allowed others to raze to the ground beautiful trees that are not causing any trouble to anyone. I have to ask permission to change everything outside my house that grade II listed building and you allowed to remove completely an historic building as the Wools Store and to make major change to an historic building as Courtfield House and its surrounding. Moreover Polebarn Road that it is a really narrow street will become really busy and not able to deal with the traffic that will be caused by all these future dwellings with a lot of trouble even to the Police Station when Police cars/vans have to exit for an emergency calls.</p>
