	<p>This application should be refused. This is a green, wild space, near the centre of Trowbridge and needs to be preserved. This type of land is becoming rarer due to building work. We need a wild space to act as a lung and help Trowbridge breathe. I am aware that it is near the park, but as an alternative why not make it an extension to the park? Why not continue to reuse land that has already been developed?</p> <p>This would create luxury houses for those who want to live near the park, not the sort of housing that Trowbridge badly needs.</p> <p>Trowbridge does not need luxury housing it needs more housing for young people struggling to get set up in life.</p> <p>Please reconsider and look to build affordable housing in another location.</p> <p>Thanks</p>
