Application No:	18/04656/FUL
Comments:	I strongly disagree with this planning application. Building on the orchard will destroy the historic woodland which is home to many wildlife. In addition to this, the only access to the site is a narrow and congested road, adding more housing with a number of vehicles will only increase the dangers of the road. I have witnessed a number of near miss accidents on this road due to people speeding down the road , with other cars reluctant to give way.
