Application No:	18/04656/FUL
Comments:	<p>I believe that this development needs to be modified to take account of the historic orchard and create a community orchard for the good of the town.</p> <p>The house and orchard offer a important area for the town - for the people and wildlife. An orchard for the town will offer conservation, education and aesthetic advantages to our town.</p> <p>As a charity we have created a proposal for a community orchard that would enable the housing development to go ahead but with smaller footprint, saving an asset for the town.</p>
