Application No:	18/04656/FUL
Comments:	I object the the proposal to build 16 luxury dwellings on the land adjacent to Courtfield House which is currently an orchard and green space. This site is important ecologically and historically with many rare species of plants including fruit trees. It is home to many species of birds, bats plus other mammals and insects. It is an omportant green space in the centre of town and should be preserved not ruined.
