Comments:	<p>There is increasing concern that this 18th century house is becoming more and more dilapidated along with the orchard. What is the council doing to ensure that, under the stewardship of Ashford Homes, the structure is protected from further deterioration as is both their duties?</p> <p>Why did the Local Authority not inform Ancient Monuments, The Georgian Group and the Historic Society of this development as it is their duty to do?</p> <p>Why was the house not entered when the Archeology Report was done?</p> <p>With the impact of other developments in the near vicinity, surely this plan cannot be considered in isolation. The increase in traffic movements alone on a 'no through road' with parking down one side, apart from the effect on the surgery should not be ignored.</p> <p>And now there is another site location plan in addition to the previous one. Which is the correct one?</p>
