Comments:	The Three Horseshoes has been a staple of the village for my whole life, run by one landlord for over 20 years, and the second landlord for nearly 4 years until it closed in January 18 - and it is the only food serving pub in the Village. To have this removed will impact on the social life of the village, removing a communal area and impact on the communal spirit. Although I have moved to Salisbury I return regularly to my parents property in Burbage and we have visited the pub with village friends and family, even after moving out of the village.
