Comments	<p>Burbage is a Large Village (CS) and one of the two existing pubs does not open at lunch time or sell food, the Three Horse Shoes is the other. Run with some flare there is more than enough local trade and passing trade to sustain a good business, which has been the case for the majority of the past twenty years. The developer's case is based solely on their hypothetical submission that this could not be a viable business to support more houses over and above those in the emerging Neighbourhood Plan nearing its referendum stage. This public house should be retained for at least a reasonable period say two years and given a chance to turn it into a thriving business. The unsubstantial developer's case is strongly opposed and should not be approved.</p>
