Application No	18/04678/FUL
Comments	The Three Horseshoes was, and could be, a viable pub. The location; on a green, within a large village, within easy reach of several towns and adjacent to a major traffic route provides ample opportunity to develop footfall. The pub requires management with energy and enthusiasm - to become a successful business and a key asset within a rural village. It really must not be allowed to become just one more private dwelling.
