Application No:	18/04678/FUL
Comments:	<p>It is clear that the proposal is incorrect on many of its "facts" and this has been clearly identified and articulated by others in their comments. However, I believe that I am well placed, not least because we had a Three Horse Shoe sign in our garden, to comment on 5.16.</p> <p>"When the building was used as a pub, there were a lot of people coming and going, either by vehicle or on foot, including staff, customers and deliveries, through long hours of the day.</p> <p>There may also have been noise and disturbance caused during use of the beer garden. This may have on occasions created some tension with the residential neighbours"</p> <p>I have lived here for 28 years and not on any occasion have I had cause to complain about noise and disturbance nor am I aware of any tension between the pub and me.</p> <p>This is another example of the inadequate "homework" carried out by the planner and the misuse of alleged "facts".</p> <p>The application should be rejected not least because of its distortion of the situation and facts.</p>
