	<p>Please note my strong objection to the conversion of my local pub to a residential dwelling. I have frequented the Horseshoes for many years. The pub needed some updating, especially the toilets, and with the right publican and as a free house it could easily move forward. We need a pub which opens at lunchtimes and importantly serves food. The White Hart and Bruce's Arms both manage to flourish with restricted opening hours and a lack of food. There was a resident willing to buy the pub as a going concern and he should have been given the opportunity ahead of greedy developers.</p>
