	<p>Point 4.4 in the Design and Access Statement is:</p> <p>‘Conserve heritage assets in a manner appropriate to their significance, so that they can be enjoyed for their contribution to the quality of life of this and future generations.’</p> <p>It appears that this particular pub has not been given a fair chance to survive as it has been very swiftly sold on to developers without enough time given to marketing what should be a viable business in the right hands.</p> <p>Furthermore There seems to be a disparity in the site plans appearing in the planning application. It appears that some of the land may be omitted from the formal application.</p>
