	<p>Further Comments :</p> <p>In addition I want to comment on the claim that there are tables for only 16 covers. While this is true of the "Lounge" area, there is no mention of the "Bar" area, which accommodates a similar number. Many people preferred to eat in the "Bar" and chose to, even though there may have been space in the "Lounge". Equally no mention is made of the garden, where again,</p> <p>in summer, many patrons chose to eat, therefore increasing capacity even further. These omissions seem yet more attempts to mis-inform and create a false impression of the potential the pub has to be a successful business in the right hands.</p> <p>I therefore repeat my strong objection to the application.</p>
