Application No:	18/04678/FUL
Comments:	The applicant uses the profit and loss account (P&L) for the four years to September 2017 to justify its argument that the pub is not viable. Many of the people who have objected have pointed to the impact of the last tenants in critically undermining sales, which determine the revenue shown in the P&Ls. As such, if it is accepted that the sales over the last four years do not reflect the true potential of the pub, many objectors giving examples of how they can be improved, then the historic P&L provides no justification for allowing the application.
