	<p>This was a flourishing pub with good food for 20 years. The last managers made little effort to run the pub, Sunday food was good and popular... the weekdays they didn't bother. They often turned their back on customers and worked on their ipad. Food is essential to the running of a pub now and could return the Three Horse Shoes to being viable. Also, friendly staffing would help. I Understand they have left to run another Wadworth pub, which I am sure will also close down and planning will soon go in for another residential site.</p> <p>I agree 100% with previous Objections to this development, it did have passing trade and with a good manager we would be so grateful to have it back again,.</p>
