

	18/04678/FUL
	<p>It is vital to the community and to the continued commercial success for this village to retain the Three Horseshoes as a public house. To grant permission to develop as a private property would be detrimental to the well being of Burbage village and its 2000 residents, not to mention the passing visitors from the Kennet & Avon canal who come in search of a warm welcome. A village of this size has history which we must preserve to retain its character and integrity whilst providing an important hub for the community.</p>
