Application No:	18/07717/FUL
Comments:	<p>Keevil is designated as a small village within the Wiltshire Core Policy 2. It states that development here will be limited to infill within the existing built area. Also development should respect the existing character and form of the settlement. The proposed house is directly behind three existing thatched houses and does not complement these houses or others which surround it. The proposed development therefore does not comply with either of these conditions of the core strategy and should not be approved</p>
