Application No:	18/08304/FUL
Comments:	<p>Parking in this area is already at breaking point with vehicles regularly being parked on kerbs and grass. Taking away parking spaces and adding houses is only going to compound the situation. The photos on the application are severely out of date and do not portray an accurate representation of the situation.</p> <p>Taking away some of the precious little green space we have will leave the growing number of children less safe areas to play, and with more vehicles it will only be a matter of time before an accident.</p>
