Application No:	18/11052/FUL
Comments:	<p>I have looked at the application for the use of this section of Salisbury Plain as a film set and am concerned to see that the application indicates that the area is not visible from either public roads or public rights of way. This is not correct since the mapped area clearly shows several rights of way crossing the area. As a regular user of those ROW, I am concerned that there appears to be no indication how this will be managed as to public use of the area during filming. No objection or comment seems to be forthcoming from the Wiltshire Council Rights of Way department either. I am concerned that this application, if given the go ahead, will severely curtail the public use of the current rights of way for a significant time.</p>
