Subject: Objection

Dear Sir/Madame,

I write to express my objection to the change of use of the now Marlborough Conservative Club on Marlborough High Street to a dentist surgery.

As a member of the Marlborough community, I see this place as an area where both the younger generation and more seasoned members of our society can mix, something which can only be a good thing in my opinion! The atmosphere provided by the lovely bar staff and everyone who enters gives the building a feeling of such warmth and goodwill.

This sense of togetherness is something I think can often be forgotten, especially in the hectic world we live in, but I hope you will take what I have said into consideration. This change would really be a dreadful loss to our town.
