Comment:	<p>Marlborough Town is already struggling with lack of parking and the opening of a new dental practice will in my opinion impact on this negatively. Further to this there are already 2 dental surgerys in close proximity, one of which opened in the last 12 months and is in walking distance to this club.</p> <p>Marlborough has already lost the British Legion club and by removing another club of this type will prevent access to needed groups of people such as Military Veterans who are unable to achieve this in other locations in Marlborouh and surrounding villages.</p>
